These services were advertised:

- engineering
 - dimensioning of the product pipe
 - choice of pipe isolation and field joint coating
 - obtaining permits and authorizations for the project
- procurement of the incorporated pipes
- whole soil and pipeline constructions until the integration
- the line installation over 4600 m with HDD procedure

LMR offer:

Installation water pipe DN 300

tubing data

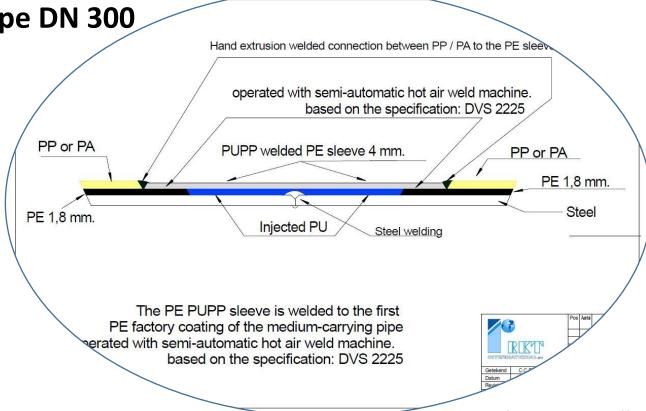

dimension:

steel quality:

inner lining:

factory isolation:

welding isolation:

crossing between Den Helder and Texel, Length = 4.600 m

project tender **offer** planning performance future perspectives

Essential steps of LMR's drilling program:

- pipe construction on mainland
- DN 800 Casing on both sides
- LMR 350 to Rig on Texel
- LMR 250 to Rig in Den Helder
- intersect with Gyro & Radar
- reaming of pilot bore hole /reaming of bore hole to 19"
- pipe installation of 3 pipe string segments with 2 golden joints
